## Chemparts - An Introduction

Chemparts Middle East FZC Chemparts Middle East as one of the leading complete laboratory solution providers in the Middle East. We have been serving this market for the last 10 years and is led by a management with more than 25 years of international experience.

We began our journey in the year of 2005 and there was no looking back after that. We have expanded tremendously with two branches in UAE and a branch in Qatar. We have associates in the other countries like Kuwait, Oman, Bahrain and Saudi Arabia. We have a huge client base from these countries. We represent well-known brands like Oxford Instruments, UK, Tanaka, Trace Elemental etc. to name a few.

We also represent well known principles from the material testing segment like a) ALFA TEST, Turkey b) Testing. DE, Germany c) Geotechnical Testing Equipment, UK

We cater/supply the complete range of equipment's for:

- Concrete Testing
- Steel Rebar Testing
- Cement Testing
- Aggregate
- Soil
- Asphalt
- Rock Mechanics

- Mining, Coal and Iron
- Lab Tools
- Glass wares and Consumables
- Safety Equipment's
- Mobile Laboratory setup
- Bitumen Testing Equipment's

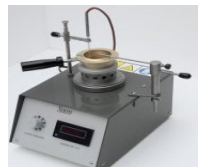

Since its establishment in 1972, ALFA has been manufacturing testing equipment for concrete, cement, aggregates, soil, asphalt, rock, and steel. ALFA has been the leader in customer support, product quality, production excellence, and capacity, in the region and most of the world's countries. We applied over 43 years of experience in the material testing business and have been putting it in an achievement in every aspect of marketing, Research and Development, customer services, installations and after sale services.

Today, ALFA logo is known as, quality, assurance, integrity and reliability in the world market with professional attitude, work ethic and trust. It was both hard work and the experience throughout the years that developed our attitude.

With its guaranteed quality, customer support, fast delivery time and after sale support, ALFA has been exporting products to more than 90 countries all over the world.

Since 1958 Scavini & Co. manufacture petroleum testing apparatus. A well trained staff of electrical and mechanical engineers permits us to continuously update our products to the state-of-the-art technology and to the new requests coming from the market.

Geotechnical Testing Equipment, we have been providing our clients with the most appropriate and tailored test solutions and instrumentation for their very specific needs for over 10 years.

Our Equipment is used for both research and development, and quality control applications to test the strength, elasticity, durability and properties of building materials.

The commitment and entrepreneurial spirit has made Geotechnical Testing Equipment a leading brand in the material testing industry. The company is both based and registered in the United Kingdom, 40 miles North of London, in Buckinghamshire. Geotechnical Testing Equipment has enjoyed expansive growth in recent years, as a result of expanding into a global arena.

For more than 30 years Testing.de have been producing construction material test equipment and are very successful, not only in Germany but also on the world market. Testing.de offers customers

an extremely extensive supply range, in order to be able to fulfil all requirements and wishes. "Made in Germany" stands as a symbol for the outstanding quality of the products made by **Testing**. Testing.de is EN ISO 9001 certified since 1996.

## Products:

### GENERAL

- Laboratory Oven
- Climatic Chamber
- Microwave Oven
- Muffle Furnace
- Water Distillation Unit
- Water Bath
- Sieve
- Sieve Shaker
- Electromechanical Sieve Shaker
- Multi-Deck Grading Machine
- Platform Scale
- Mechanical Balance
- Electronic Balance
- Electronic Balance
- Density Basket
- Cradle
- Specific Gravity Frame
- Sample Splitter
- Universal Sample Splitter
- Load Ring
- Dial Indicator
- Load Cell

### CONCRETE

- Compression Tester
- Flexure Apparatus for Concrete Beams
- Flexural Testing Machine
- Slab Testing Machine
- Concrete Pipe Testing Machine
- Cylinder Mould
- Cylindrical Capping Set
- Plastic Cube Mould
- Steel Cube Mould
- Beam Mould
- Concrete Flow Table
- Vebe Consistometer
- Slump Set
- L-Box Apparatus
- V-Funnel Apparatus
- U-Shape Box Apparatus
- J-Ring Apparatus
- Compacting Factor Apparatus
- Concrete Penetrometer
- Vibrating Table
- Poker Vibrator
- Airmeter
- Plastic Curing Tank
- Metal Curing Tank
- Controlling Unit for Curing Tank
- Drum-Type Mixer
- Pan-Type Mixer
- Concrete Water Impermeability Tester
- Ferrodetector
- Periscope
- Universal Cutting Machine
- Cutting Machine
- Coring Machine
- Core Bits for Concrete
- Digital Concrete Test Hammer
- Testing Anvil
- Concrete Test Hammer
- Crack Detection Microscope
- Ultrasonic Tester

### CEMENT

- Cement Compression and Flexural Tester
- Compression Jig
- Flexural Jig
- Cement Compression Test Mould
- Cement Flexural Test Mould
- Blain Apparatus
- Mud Balance
- Marsh Funnel
- Jolting Table
- Cement Vibrating Machine
- Vicat Apparatus
- Automatic Vicat Apparatus
- Motorized Flow Table
- Flow Table
- Cement Mixer
- Mortar Mixer
- Automatic Cement Mixer
- Automatic Mortar Mixer
- Le Chatelier Flask
- Le Chatelier Mould
- Le Chatelier Bath

### MINING / COAL / IRON & STEEL

- Jaw Crusher
- Cylindrical Crusher
- Hammer Crusher
- Shredder Machine
- Disc Mill
- Vibratory Disc Mill
- Planetary Disc Mill
- Universal Cutting Machine
- Cutting Machine
- Core Cutting Machine
- Laboratory Oven
- Sample Splitter
- Sieve
- Sieve Shaker
- Electromechanical Sieve Shaker
- Multi-Deck Grading Machine
- Flotation Machine
- Pressure Filter
- Magnetic Separator
- Pellet Press
- Pellet Strength Tester
- Grinding and Weighing System
- Hammer Crusher
- Shatter Indices Tester
- Hardgrove Grindability Index Tester
- Abrasion and Crumbling Index Tester
- Universal Tensile and Compression Tester
- Compression Tester for Iron/Steel
- Steel Sheet Sampling Machine
- Aluminum Sampling Machine
- Pellet Press
- Pellet Strength Tester
- Electronic Balance
- Platform Scale
- Specific Gravity Frame

### Other Items:

- Laboratory Glass wares
- Hardness Testers
- Safety Items
- Thermal Imaging Camera
- Chemicals and Reagents

And many more... Please contact Chemparts for more details.

## Chemparts Middle East

Chemparts Middle East FZC – has been in existence since 2005. Headquartered in SAIF Zone, Sharjah – UAE, Chemparts began operations in the Middle East as a supplier of analytical and scientific equipment's, glassware and laboratory needs, to various industries, (Petroleum, Power Plant, Cement Factories, Oil Refineries etc.) research facilities and laboratories. We also act as an agent and exclusive distributor for various international companies, mainly manufacturers of high technology tools for research and industry. For more details on what we are and what we do kindly visit [www.chemparts-me.com](http://www.chemparts-me.com).
